

## Many Marvelous Markers Technique Classes

The Many Marvelous Markers set is a great investment. Along with the 48 dual-tip Stampin' Write markers, it includes a horizontal storage case to keep both tips inked evenly. The markers are fun and can be used with so many fabulous techniques.

Does spending \$125.95 plus shipping and tax (about \$154) seem like more than you want to spend all at once?

How would you like to own the whole set of markers, FOUR assorted packages of card stock and have fun learning **12 fabulous techniques using the markers** for only \$55 per month for four months? It's amazing what you can do with markers!

Would you also like to get a free hostess set and \$15 FREE merchandise too?

Then Many Marvelous Markers Technique Class is for you! Here is how it works:

- Every group of four people will be dividing up a box of markers each month for four months. So, every month you take home a different set of 12 markers.
- Every person will also take home a package of assorted card stock that matches the markers.
- Each month one person is the "hostess," that means you get to keep the storage box, select a level 1 hostess set and \$15 to spend in the catalog.
- Every month you will learn 3 great techniques using markers. You will have a technique booklet that you will fill in, including instructions. You will also be making 3 cards using those same techniques.**
- You will pay for each class two weeks ahead, so that the order has already arrived and you can take the markers and card stock home with you each month.
- If you can't make class or you live too far away, don't worry, I'll make your technique pages and cards for you. You can pick them up later with your markers or I will be happy to ship them to you for a small additional fee.

At the end of 4 months everyone owns a complete set of markers with a storage case, 4 packages of assorted card stock, a technique booklet, 12 great cards and envelopes, a level 1 hostess set and \$15 in Free merchandise. WOW!

Of course, if you want more free stuff, add on a catalog party or workshop during your month as hostess. It's easy and fun!

Please bring your own adhesive, or if you need some, let me know ahead of time and I will add it to your order. I'm happy to keep it here for you until the classes are finished.
